TURNDAY, May 9-6 P. M. The stock market showed increased activity this morning, but the transactions were symptomatic of weakness.
At the close of the first board New York Central was 1 per
cent lower than at the second board yesterday, Eric 1½,
Redson River 2, Reading 1½, Michigan Southern 1, Illinois Central 2, Cleveland and ritisburg 34, Northwestern
54, Rock 1-land 34, Fort Wayne 1, Ohio and Mississippi
certificates 2¼, Quicksilver 1%, Cumberland 1½. Government securities were active. Coupon five-twenties
advanced 34, but the rest of the list was barely steady.
The advance of five-twenties in London to 80 is antic-

ance of five-twenties in London to 80 is anticl paied by many, coupled with an increased demand, which will force the price on this side to 112 a 115. Allowing gold to be selling at even 100, the predicted advance in Europe would justify the estimated rise in from 155 to 165 on the street on the morning following the assassination, and that the extreme full of five-twenties don on the rece pt of that news was only to 59% sow after which they recovered one or two per cent according to private advices, we can the more readily allow for the reaction which would follow intelligence of the decline of gold to 147 on the next business day, and the revival of confidence throughout the country in the ability of the government.
At the open board at one o'clock the market was on the

whole steady, although a fractional improvement look place in a portion of the list. At the second board the market was a shade better. Eric was ½ higher than at the close of the morning board, Hudson River ½, Reading ½, Michigan Southern ½, Cleveland and Pittsing %, Michigan Southern ½, Cleveland and Pittaburg M. Fort Wayne ½, Ohio and Mississippi certificates ½. New York Central was ½ lower, Morthwestern ½, Rock Island ¾. Government a curities were firm. At the open board, at half-past three, there was a general improvement. New York Central closed at \$7.4, Eric 10½, Hudson River 108, Reading 100½, Michigan Cantral 111½, Michigan Bouthern 60½, Minois Central [b. 3) 116½, Cleveland and Pittsburg 74½, Rock Island 90¾, Northwestern 29½, Port Wayne 97½, Curiboriand 46½, Quickeliver 60½. After the board prices were steady.

The stock market is unfavorably influenced by the The stock market is unfavorably influenced by the decline in gold, and the bulls have great difficulty in sustaining it. Its main stay is Erie, which is somewhat atrongly held, but, without outside purchasers, its fall is only a question of time. The Western railroads is particular have a weak financial hold of capitalists. Their earnings for April show a large failing off, owing chiefly to the decline of prices for produce, which necessitates a cheaper means of transit. Moreover it is estimated that the tonings west of the lakes, eastward bound, is not half what it was at the corresponding period last not half what it was at the corresponding period last year, the quantity of grain, for instance, in Miswaukee and Chicago being about one-third of that in store there at this time last year. The diversion of traffic from the railways to water conveyances will operate disadvan-tageously to the former, as it will result in reduced receipts, while the expenses can show little or no diminu-tion. Nevertheless the prevailing ease in the money market is highly favorable to speculation for a rise; but it requires to be understood that neither the present nor higher prices will be permanent. Gold has been weak to-day. The opening quotation

was 137%, after which it declined to 135%; but it rallied and clos d at 5 P. M. at 136%.

The fall in gold is one of the signs of that revival in

confidence in the public credit which is a natural consequence of the downfail of the rebellion and the limitaof the national debt. We may now safety assume that the immense indebtedness we have incurred is within control of the nation, whereas, while the war ultimate extent of the increase of the debt was a matter of uncertainty, and the public credit was meanwhite exposed to contingencies which might have led to grave disaster. Vast as our resources are, another year of war would have seriously jeopardized the solvency of the government, and, therefore, we have reason to congratulate ourselves on the approach of peace; and the end of the robellion means peace and the resumption of ordinary peaceful industry by those heretofore engaged in the army and havy. There is no present danger of a European war, and demonstrations against Mexico, if they occur, will be mere filibustering expeditions. The growing confidence of the people in the ability of the country to liquidate its debt within a much shorter priod than is generally considered practicable will require to be sustained by Congress, during the next session, passing aconsolidation bill, and another bill enforcing the provisions of a former measure for providing a sinking fund; provided the people are willing the entire debt of the nation—estimating it at three thousand millious—may be extinguished in a single generation—any seventeen years and six months; and we propose soon submitting the details of a plan for the accomplishment of this. It is not in the genius of the American people to carry forever the burden of a heavy national debt, and some more expeditious method for its liquidation must and can be found to grave and bags, 23½c. a 23½c.; and have a 23½c. and a 23½c.; and have a 23½c.; and have a 23½c.; and have a 23½c.; and have a 23½c.; meanwhife exposed to contingencies which might have led to grave disaster. Vast as our resources are, another year of war would have seriously jeopardized the solditious method for its liquidation must and can be found than that known to practice in Europe. We have, at the same time, infinitely more advantages than any other country possesses for paying a great debt as well as

are, however, firm. Bankers ask 109% a 110 for their sixty days bills, and 110% a 110% at short sight. Merchants' bills are scarce at 108% a 109%. Money remains extremely abundant and in excess of the demand. Call loans are made at five per cent and in exceptional cases at six, and the best grade of commercial paper is

waging a great war.

The subscriptions to the seven thirty loan are increas ing, and to-day Messre. Fisk & Hatch, of this city, repor Zheir subscription at the enormous sum of \$5,050,400, to which Henry Clews & Co. add a million and the First National Bank half a million. Only about a hundred and fifty millions of the three hundred millions put upon the market under the last act of Congress ain to be taken. Another three hundred millions making up the six nundred millions authorized, remain to be disposed of afterwards; but it is expected that the government will not require to issue the whole of this on the present terms, and we advise a reduction of the rate of interest on the second three hundred millions to six per cent in currency. The unpaid requisitions, including quartermasters' vouchers, at the present mo ment, are supposed to aggregate about one hundred mil lions. We notice that a subscription of fifty thousand dollars was received yesterday from a national bank at Richmond, Virginia.

Mesers, Fisk & Hatch, bankers and dealers in government securities, have to-day removed from Wall street to the Continental Bank building, No. 5 Nassau street. The gross earnings of the Racine and Mississippi and Northern Illinois railroads from January 1 to April 30 th s year amounted to \$147,331-increase over the re-

ceipts during the same period last year \$373.

The New York Central Railroad carned in April, 1804, \$1,105,663, and in April, 1865, \$1,300,000-increase

THE HAYES-CHARLICK MUDDLE.

Conclusion of the Trial-Verdict for the Defendant.

OUBT OF COMMON PLEAS.

Before Judge Brady.

MAY 9. — William M. Hayes vs. Oliver Charlick. — The trial of this remarkable cause was resumed this morning,

in the presence of a large number of spectators.

Thomas Duniap, Deputy Sheriff, deposed that he was present at Jefferson Market Police Court when Hayes was brought there; I have known Oliver Charlick for many years; knew him prior to 1881; I did not see Mr. Charlick there that evening: I left the court room in company

with Judge Quackenbush, and up to that time I saw nothing of Mr. Charlick.

Mr. Hall—We rest here, your Honor, unless we are permitted to show why Mr. P. G. Maloney is not here. He is quite ill and could not be present.

Mr. Smith—We will call Dr. Weltje to the stand.

Mr. Hall—I object, the plaintiff having closed his case

Mr. Hall—I object, the plaintin having closed his case
and no fresh testimony having been introduced by us.
Mr. Smith—It is for the purpose of rebutting the evidence of the defendant.
Judge Brady—The objection is overruled. Christopher Weltje, M. D., deposed that he was acquainted with the plaintiff and defendant; I have known

Mr. Charlick for eight or nine years.

Q. Did you see him on the evening of the 2d of No

Mr. Smith—I want to show that Mr. Charlick has sworn falsely in saying that he was not present when the

afresh. It would be doing injustice to the other side.
Mr. emith—If Oliver Cherlick has sworn flatly that he
was not present when Mr. Hayes was arrested, am I not
emitted to show that he was "Can I not contradict his

entitled to show that he was? Can I bot contradict his evidence?
Judge Brady—The defence in this case is a general denial, and the defendant is entitled to show he was not present. I think he has proven it.

Mr. Smith—Do I understand your Honor to say that he has proved his defence?
Judge Brady—I think he has; but that is a matter for the jury to pass upon.

Mr. Smith—Your Honor will please note our exception. I will ask a few other questions even if they are overruled.

Q. Did you see two persons at Mr. Hayes' place of business on the evening of the 2d of November, 1861, who represented themselves as officers?

Mr. Hall—We object. (Objection sustained.)

Mr. Smith—I now propose to call the son of the late Dr. Ingraham to the stand.

Judge Brady—What do you inlend to prove by this witness?

Mr. Smith—I want to prove that he was present and

witness?

Mr. Smith—I want to prove that he was present and saw Oliver Charlick there, and that the policemen did not show their warrant or exhibit their shields.

Judge Brady—You may show that the policemen did not show their warrant or exhibit their shields, because there is some doubt upon this point, but you cannot show that Mr. Charlick was present, for that has been all gone through with.

Judge Brady—You may show that the policemen did not show their warrant or exhibit their shields, because there is some doubt upon this point, but you cannot show that Mr. Charlick was present, for that has been all gone through with.

Mr. Smith—Well, we will examine the witness, subject to the ruling of the Court

Marvin Jugraham deposed that he was a clerk in the Sub-Treasury department; I am acquainted with Mr. Hayes and Oliver Charlick; was present at Mr. Hayes' place of business on the 2d of November, 1861; did not see any persons exhibit any shield or badge of office; they inquired for Dr. Jugraham, my father, and said they had a warrant for him, but did not show any.

Dr. Wellje recalled.—On the evening of the 2d of November, 1861; I was present at Mr. Hayes' place of business; two men came in who represented themselves as officers; they showed no shields, neither did they exhibit any warrants.

Mr. Smith—That is our case.

Mr. Hail—We have no more testimony to offer.

THE SUMMING UP.

In summing up the case for the defence, Mr. Hall assumed that the case for the plaintiff was not proven to the satisfaction of the jury. Mr. Charlick had clearly proved that he was in no way implicated in the arrest of the plaintiff. The arrest was made by the officers on their own responsibility, because of the interference of the plaintiff in preventing the arrest of Dr. Ingraham. The idea that a public place of business was a "man's castle" was absurd, and the police were fully pastified in taking the measures they did to secure the capture of the persons mentioned in the warrant. In fact, it was the duty of the plaintiff to sessist the officers in their efforts to arrest Dr. Ingraham, rather than to after any obstacle to their will. The plaintiff was a wrongdoer, and rendered himself liable to arrest; and it would be the height of folly to reward him for his obstinacy, Mr. Hayes and the wilnesses for the plaintiff were mistaken about Mr. Charlick being present in Spruce street, just as they were about his being present

render such a verdict as would not only be a punishment to the defendant but a warning to all trespossers in the future.

In charging the jury the Judge remarked that he deemed it his duty to say that because the defendant was wealthy and force about in his carriage lie was none the less entitled to their consideration. The case for the defence was not to be prejudiced because of the riches of the defendant or his ability to employ first clars lawyers. The action was brought against Mr. Charlick for his alleged participation in the arrest and nearceration of the plaintiff, and he could only be held responsible for what he did himself, and not for any outrage indicted by others. Mr. Charlick swears that he had nothing whatever to do with the arrest of the plaintiff, and did not know anything about it until the next day. If you believe his statement to be true, why that is the end of the case. If, on the other hand, you believe that the defendant has sworn falsely, and that the evidence of Hayes, Davis and Sutherland is correct, then your verdict will be for the plaintiff. The case presents some remarkable features, and for conflict of testimony exceeds anything of the kind that ever I experienced. It is for the jury to determine who is most worthy of bellef, and in arriving at a conclusion it is proper for you to consider the relations that the witnesses on each side bear to the contesting parties.

The case was then submitted to the jury, who, after a short deliberation, rendered a verdict for the defendant.
